**This McClatchy-Marist Poll Reports:**

According to this McClatchy-Marist Poll, Democrat Patty Murray and Republican Dino Rossi are in a virtual dead heat in the race for U.S. Senate in Washington State. Murray has 49% among likely voters including early voters and those who are undecided yet leaning toward a candidate to Rossi's 48%. This data was collected from Tuesday, October 26, 2010 through Thursday, October 28, 2010 with still five days to go until Election Day.

**Washington State: U.S. Senate Likely Voters**

Question: *If next week's election for U.S. Senate in Washington State were held today, whom would you support if the candidates are: [If undecided: If you had to decide today, are you leaning more towards:]*

**More Republicans than Democrats Enthusiastic to Vote**

A majority of registered voters are enthusiastic about voting on Tuesday. Republicans and conservatives are more enthusiastic than Democrats and liberals about casting their ballot. Although 56% of Rossi backers and 51% of Murray supporters are very enthusiastic, there has been a narrowing in the gap from McClatchy-Marist's previous poll. At that time, 58% of voters for Rossi and 43% of Murray backers expressed a high level of enthusiasm.

**Washington: Those Very Enthusiastic to Vote 2010**

Question: *Thinking about next week's elections overall, would you say you are very enthusiastic, somewhat enthusiastic, not too enthusiastic, or not enthusiastic at all about voting in the elections next week?*

	October 30, 2010	October 20, 2010

October 30, 2010 McClatchy-Marist Poll Washington State Registered Voters including early voters N= 838 MOE +/- 3.5%. Totals may not add to 100 due to rounding.

**Key Findings:**

- 48% of registered voters approve of the job President Barack Obama is doing in office. Obama's approval rating has changed little since McClatchy-Marist's previous survey. Obama carried Washington State by 17 percentage points two years ago.
- Nearly half of registered voters in Washington State -- 49% -- think we've turned the corner and the nation's economic problems are behind us. 41% say the worst of the nation's economic problems are yet to come. In McClatchy-Marist's previous survey, voters divided with 44% saying the worst was behind us and the same proportion -- 44% -- reporting the worst is still ahead. Voters who are pessimistic about the economy and believe it will get worse are more likely to vote Republican. Those who are more optimistic and believe the worst is behind us are more likely to vote Democratic.
- 61% of registered voters think President Obama inherited today's economic conditions from the Bush years. 30% say the economy is a result of Obama's policies.
- Nearly nine in ten likely voters strongly support their choice of candidate. 87% of Murray supporters and 85% of Rossi supporters firmly back their pick. Voters' intensity of support is up from McClatchy-Marist's previous survey.
- Although 49% of likely voters have a favorable impression of Murray and 46% perceive Rossi well, both have high negatives. 44% of likely voters have a poor impression of Murray while 46% assess Rossi unfavorably.
- Among all registered voters in Washington State, Murray takes 47% to Rossi's 44%. In mid-October, Murray received 47% to Rossi's 42%.

**About The McClatchy-Marist Poll's Methodology:**

Telephone numbers were selected based upon a list of telephone exchanges from throughout the state. The exchanges were selected to ensure that each region was represented in proportion to turnout in comparable elections. In an effort to increase coverage, this land-line sample was supplemented by respondents reached through random dialing of cell phone numbers. The land-line and cell phone samples were then combined.

U.S. Senate: Tossup

\*Data collection ended five days before  
Election Day.

### **Nature of the Sample: 838 Washington State Registered Voters**

This survey of 838 Washington State registered voters was conducted on October 26<sup>th</sup> through October 28<sup>th</sup>, 2010. Registered voters were interviewed by telephone in proportion to the voter turnout in statewide elections in each county. Telephone numbers were selected based upon a list of telephone exchanges from throughout the state. The exchanges were selected to ensure that each region was represented in proportion to its turnout in comparable elections. In an effort to increase coverage, this land-line sample was supplemented by respondents reached through random dialing of cell phone numbers. The land-line and cell phone samples were then combined. Results are statistically significant within  $\pm 3.5$  percentage points. There are 638 likely voters. The results for this subset are statistically significant within  $\pm 4.0$  percentage points. There are 211 early voters. The results for this subset are statistically significant within  $\pm 7.0$  percentage points. The error margin increases for cross-tabulations.
