The Marist Poll’s America Now: National Outlook Index (NOI) stands at a cautionary 6.2 out of a maximum top score of 10, comparable to the June index. Continued concerns about Americans’ economic situation and society, at large, weaken the Index. However, Americans remain more confident about their health and well-being and life in their local communities.

**Economic**

Americans remain tepid about their economic well-being. They are slightly more positive than negative about their financial picture. But, optimism wanes about their economic future and the consumer climate. Receiving the lowest score of the 16 NOI items, the jobs market remains their biggest worry.

**Health**

Americans are satisfied with their health and well-being, due largely to positive attitudes about their personal health, lifestyle, and access to health care. However, Americans still perceive a looming health risk. They are slightly less optimistic that there is no threat to their health than last month.

**Community**

Driven mainly by the safety and satisfaction with where they live, Americans are upbeat about life in their community. Safety is the highest of all NOI indicators although lower than in June. They are less likely to think they can make a difference locally and that their values reflect their community’s beliefs.

**Society**

Like the economy, opinions of society continue to weaken the NOI. Americans continue to be more positive about their personal opportunities and those for future generations. But, they still perceive an unjust society and are unconvinced that leaders are working to improve daily life.
**ECONOMIC SUMMARY**

**ECONOMIC OUTLOOK DEEP DIVE**

- This is a good time financially for your household
  - Score: 5.7
- You expect the next few months to be better financially for your household
  - Score: 5.3
- Jobs right now are easy to find
  - Score: 4.1
- This is a good time to make purchases or investments
  - Score: 4.9

**HEALTH SUMMARY**

**HEALTH OUTLOOK DEEP DIVE**

- You, yourself, are in excellent health
  - Score: 7.3
- You are happy with the life you are living right now
  - Score: 7.3
- There is little risk to your health right now
  - Score: 5.5
- You are satisfied with your access to health care
  - Score: 7.0

**COMMUNITY OUTLOOK DEEP DIVE**

- You are satisfied with the area where you live
  - Score: 7.8
- You can have an impact in making your community a better place
  - Score: 6.8
- You are satisfied with your community’s values and beliefs
  - Score: 6.3
- You feel safe where you live
  - Score: 8.1

**SOCIETY & GOVERNMENT SUMMARY**

**SOCIETY & GOV’T OUTLOOK DEEP DIVE**

- Those in leadership positions are working to make life better for people like you
  - Score: 4.8
- You feel you have access to the same opportunities as everyone else
  - Score: 6.8
- Your children and grandchildren will have a better life than you
  - Score: 5.9
- You feel you live in a society that is fair and just
  - Score: 4.7
**Nature of the Sample: Marist Poll of 1,658 National Adults**

This survey of 1,658 adults was conducted July 27th through July 28th, 2020 by The Marist Poll. Adults 18 years of age and older residing in the contiguous United States were contacted on landline or mobile numbers and interviewed by telephone using live interviewers. Survey questions were available in English or Spanish. Mobile telephone numbers were randomly selected based upon a list of telephone exchanges from throughout the nation. The exchanges were selected to ensure that each region was represented in proportion to its population. Mobile phones are treated as individual devices. After validation of age, personal ownership, and non-business-use of the mobile phone, interviews are typically conducted with the person answering the phone. To increase coverage, this mobile sample was supplemented by respondents reached through random dialing of landline phone numbers. Within each landline household, a single respondent is selected through a random selection process to increase the representativeness of traditionally under-covered survey populations. The samples were then combined and balanced to reflect the 2017 American Community Survey 1-year estimates for age, gender, income, race, and region. Results are statistically significant within ±3.3 percentage points. There are 1,539 registered voters. The results for this subset are statistically significant within ±3.4 percentage points. Tables include results for subgroups with a minimum sample size of 100 unweighted completed interviews as to only display crosstabs with an acceptable sampling error. It should be noted that although you may not see results listed for a certain group, it does not mean interviews were not completed with those individuals. It simply means the sample size is too small to report. The error margin was adjusted for sample weights and increases for cross-tabulations.

**The Marist Poll America Now: National Outlook Index** is reported on a 0 to 10 scale. A mean score for each sub-index statement was calculated. Overall economic, health, community, and society & government indices are derived by calculating an overall mean based on responses to the four sub-index questions in each category. The overall Marist Poll: America Now National Outlook Index is derived by calculating an overall mean based on responses to all sixteen sub-index questions.

Respondents were asked: Please let me know how much you agree or disagree with each of the following:

**Economic:**
A. This is a good time financially for your household  
B. You expect the next few months to be better financially for your household  
C. Jobs right now are easy to find  
D. This is a good time to make purchases or investments

**Health:**
E. You, yourself, are in excellent health  
F. You are happy with the life you are living right now  
G. There is little risk to your health right now  
H. You are satisfied with your access to health care

**Community:**
A. You are satisfied with the area where you live  
B. You can have an impact in making your community a better place  
C. You are satisfied with your community’s values and beliefs  
D. You feel safe where you live

**Society & Government:**
E. Those in leadership positions are working to make life better for people like you  
F. You feel you have access to the same opportunities as everyone else  
G. Your children and grandchildren will have a better life than you  
H. You feel you live in a society that is fair and just
