

Nature of the Sample: 827 New York City Registered Voters

This survey was conducted on February 16th and February 17th, 2009. 827 registered voters within New York City were interviewed by telephone. Telephone numbers were selected based upon a list of telephone exchanges from throughout New York City in proportion to the enrollment in each borough and adjusted for turnout in comparable elections. The results for the entire survey are statistically significant at $\pm 3.5\%$. There are 546 registered Democrats. The results for this subsample are statistically significant at $\pm 4.5\%$. The error margin increases for cross-tabulations.
